A nosa EOI e os nosos soños

Desde 2019 levamos desenrolando varios proxectos eTwinning:

Celebrating books (2019)

Stories time capsule (2019-20)

AmbassadEURs (2020-21)

Nowhere feels like home (2020-21)

Miles of meals (2020-21)

Implicación do profesorado e do alumnado

- Comecei traballando eu soa e agora traballamos cinco compañeiras, entre elas parte do equipo directivo.
- O alumnado cambia de ano en ano, como sucede en EOIs, pero este ano están preguntando polos proxectos polo tirón do ano pasado.
- Algúns alumnos son moi participativos á hora de conseguir material e contaxia a súa emoción ao resto.
- O normal é que pouco a pouco se comprometan cos proxectos.

DE GALICIA

Superación das dificultades atopadas

- Resistencia do alumnado (diferentes motivacións á hora de vir á EOI, recoñecemento no currículo laboral).
- Resistencia do profesorado (falta de coñecemento e tempo)
- Pandemia (o ensino semipresencial está mudando o perfil do alumnado, que só está no centro un día á semana)

Facerlle ver as vantaxes lingüísticas e culturais dos eTwinning

Necesidade de aumentar a formación do profesorado e o recoñecemento de eTwinning

Utilización de ferramentas dixitais e da videoconferencia

Impacto e beneficios para o centro

- Recoñecemento a nivel europeo (eTwinning school).
- Internacionalización e contacto con outras culturas.
- Intercambio de boas prácticas, sobre todo dixitais e metodolóxicas.

A experiencia eTwinning

This project was very interesting and positive. I learned more about the culture of various countries and the interaction that existed gave me a new look at the world. I wish you all the best! - Ricardo, Castelo da Maia High School, Portugal

I want to start by thanking everyone for your involvement in this project. Dear teachers and students, you have been wonderful and it has been a pleasure to work with you. I can't believe that 7 months have already passed! During these months I have learned many things and developed on all levels. I think that this project has achieved its goal of creating a unity between the countries of Europe. We are the future of Europe, and I am glad that we have learned to become responsible citizens. I was informed about the problems that are found in each country. I think it is very important to know the problems we face in order to be able to solve them. Finally, I can say that this project gave me the hope I needed so much. A hope for a better future. Not to mention that the tasks were very well chosen and structured. Congratulations to all the teachers who got involved and who guided us through this experience. Thank you!

para mí ▼

I am very happy to have participated in this Project: "Time capsule of stories" because it is very interesting to know different customs and also to promote culture and union between people from different parts of the world.

Congratulations to the teachers who were able to make this joint work a reality. All the discussions seem very interesting to me, but if I have to choose one, it would be task 6 because we had never imagined that we were experiencing a pandemic and we have seen how it affected our cities at the same time. Perhaps if this did not happen, we would continue talking about many "normal" things ... but this project is unique and we will always remember it.

We have learned that it doesn't matter where you live when something like this happens. But also that if we join together we can overcome everything that comes. We must reflect on how important aid between countries is, such as sharing materials ... and of course giving enough value to doctors and nurses. This project taught us to collaborate in times of pandemic because they are reflections of our society.

Best wishes,
