

The Four Goblin Families of England

English goblins are quite smart, but they are extremely grumpy! They are a little bit lazy and they are not very friendly. There are four different groups of goblins in England. They live in different places and they look very different.

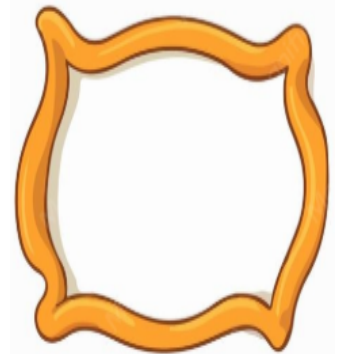

The London Goblins The London goblins live in the big city. They are very **tall** and **thin**. They have **straight blond hair** on weekdays, but they have no hair at all on the weekend—they are completely **bald**! They wear big **glasses** and they always have an **epic mustache**. They can cast magic spells perfectly, but they don't like to share.

The Manchester Goblins The Manchester goblins live where it rains a lot. They are very **small** and **fat**. They have **curly brown hair** and their faces have many cute **freckles**. In the morning, their skin is **light skin**, but in the afternoon it changes to **dark skin**. They are very sweaty because they run away from the rain!

The Newcastle Goblins The Newcastle goblins live in the north. They are **young** and very **strong**. They have **wavy ginger hair** in the summer, but they grow a **powerful beard** in the winter to stay warm. They have bright **blue eyes**, but sometimes they choose to have **no eyes** at all when they want to sleep!

The Cornwall Goblins The Cornwall goblins live by the sea. They are very **old** and **weak**, and they are **extremely smelly** because they love eating old fish! They have a **big and long nose** when they are happy, but their nose becomes **small and short** when they are sad. They have **green eyes** and they are the laziest goblins of all.

1. Answer these eight questions with complete answers:

- Where** do the London goblins live?
- What** color hair do the Manchester goblins have?
- When** do the London goblins have no hair at all?
- Why** are the Manchester goblins very sweaty?
- Who** is very young and very strong?
- Which** goblins grow a powerful beard in the winter?
- How** do the Cornwall goblins' noses change when they are sad?
- What** do the Cornwall goblins love eating?

2. After you answers the questions, draw the four different Goblins based on their descriptions.
