

## LOS MÚSCULOS

Los músculos

están debajo

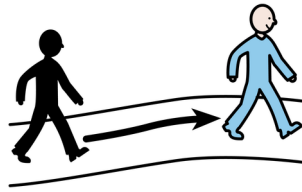

de la piel .

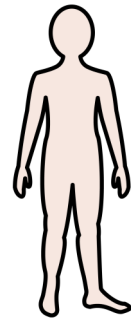

Los músculos

nos ayudan

a mover

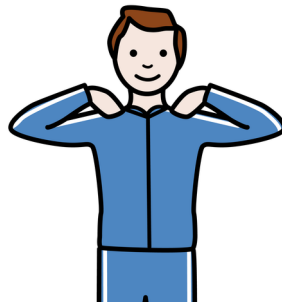

el cuerpo.

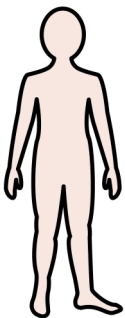

Los músculos son flexibles, se pueden

encoger y

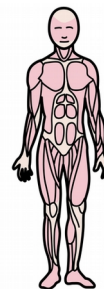

estirar.

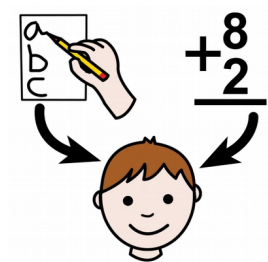

En el cuerpo

650

hay seiscientos cincuenta

músculos.

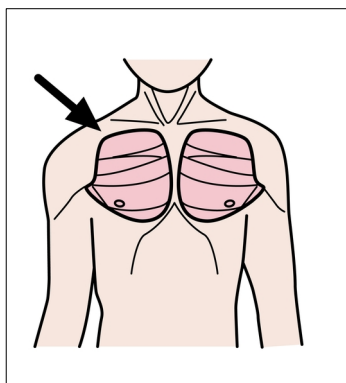

Aprendemos

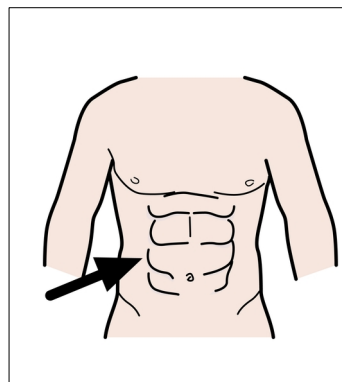

el nombre

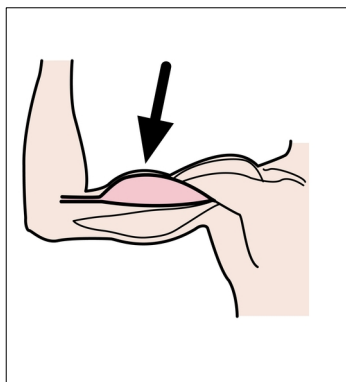

de los músculos.

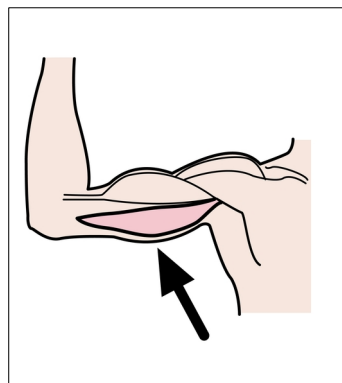

PECTORALES

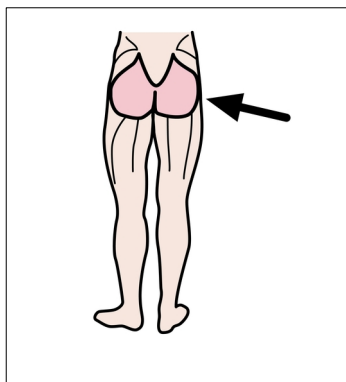

ABDOMINALES

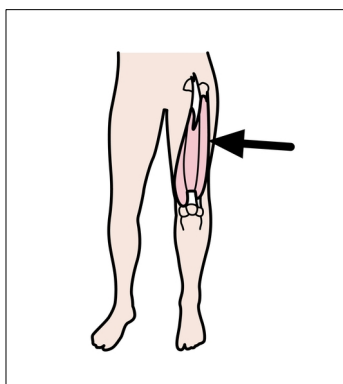

BÍCEPS

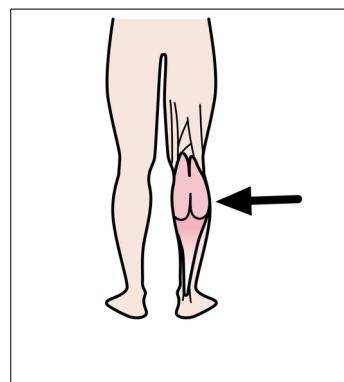

TRÍCEPS

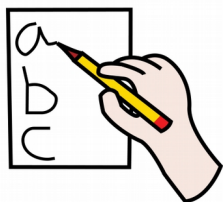

GLÚTEO

CUÁDRICEPS

GEMELOS

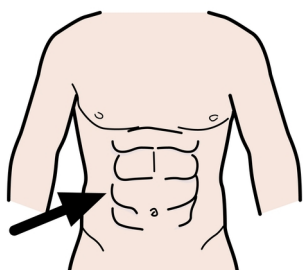

Escribe

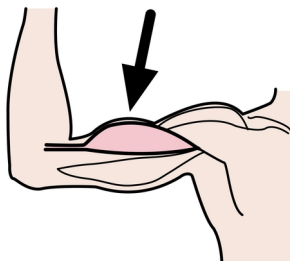

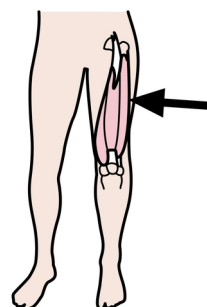

el nombre

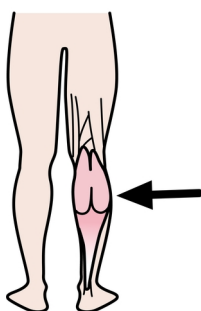

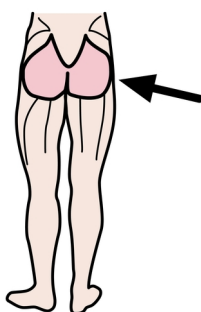

de los músculos.

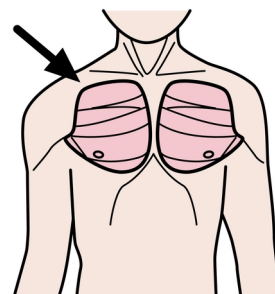

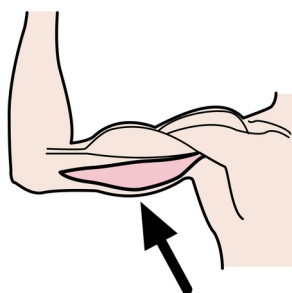

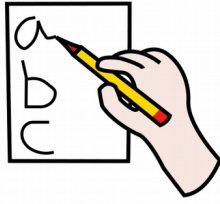

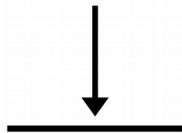

Contesta:

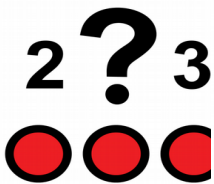

1. ¿Dónde están los músculos? \_\_\_\_\_

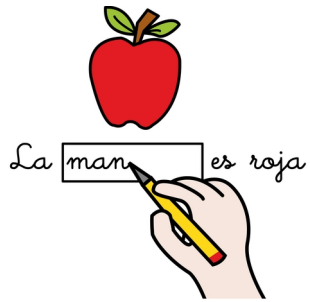

2. ¿A qué nos pueden ayudar? \_\_\_\_\_

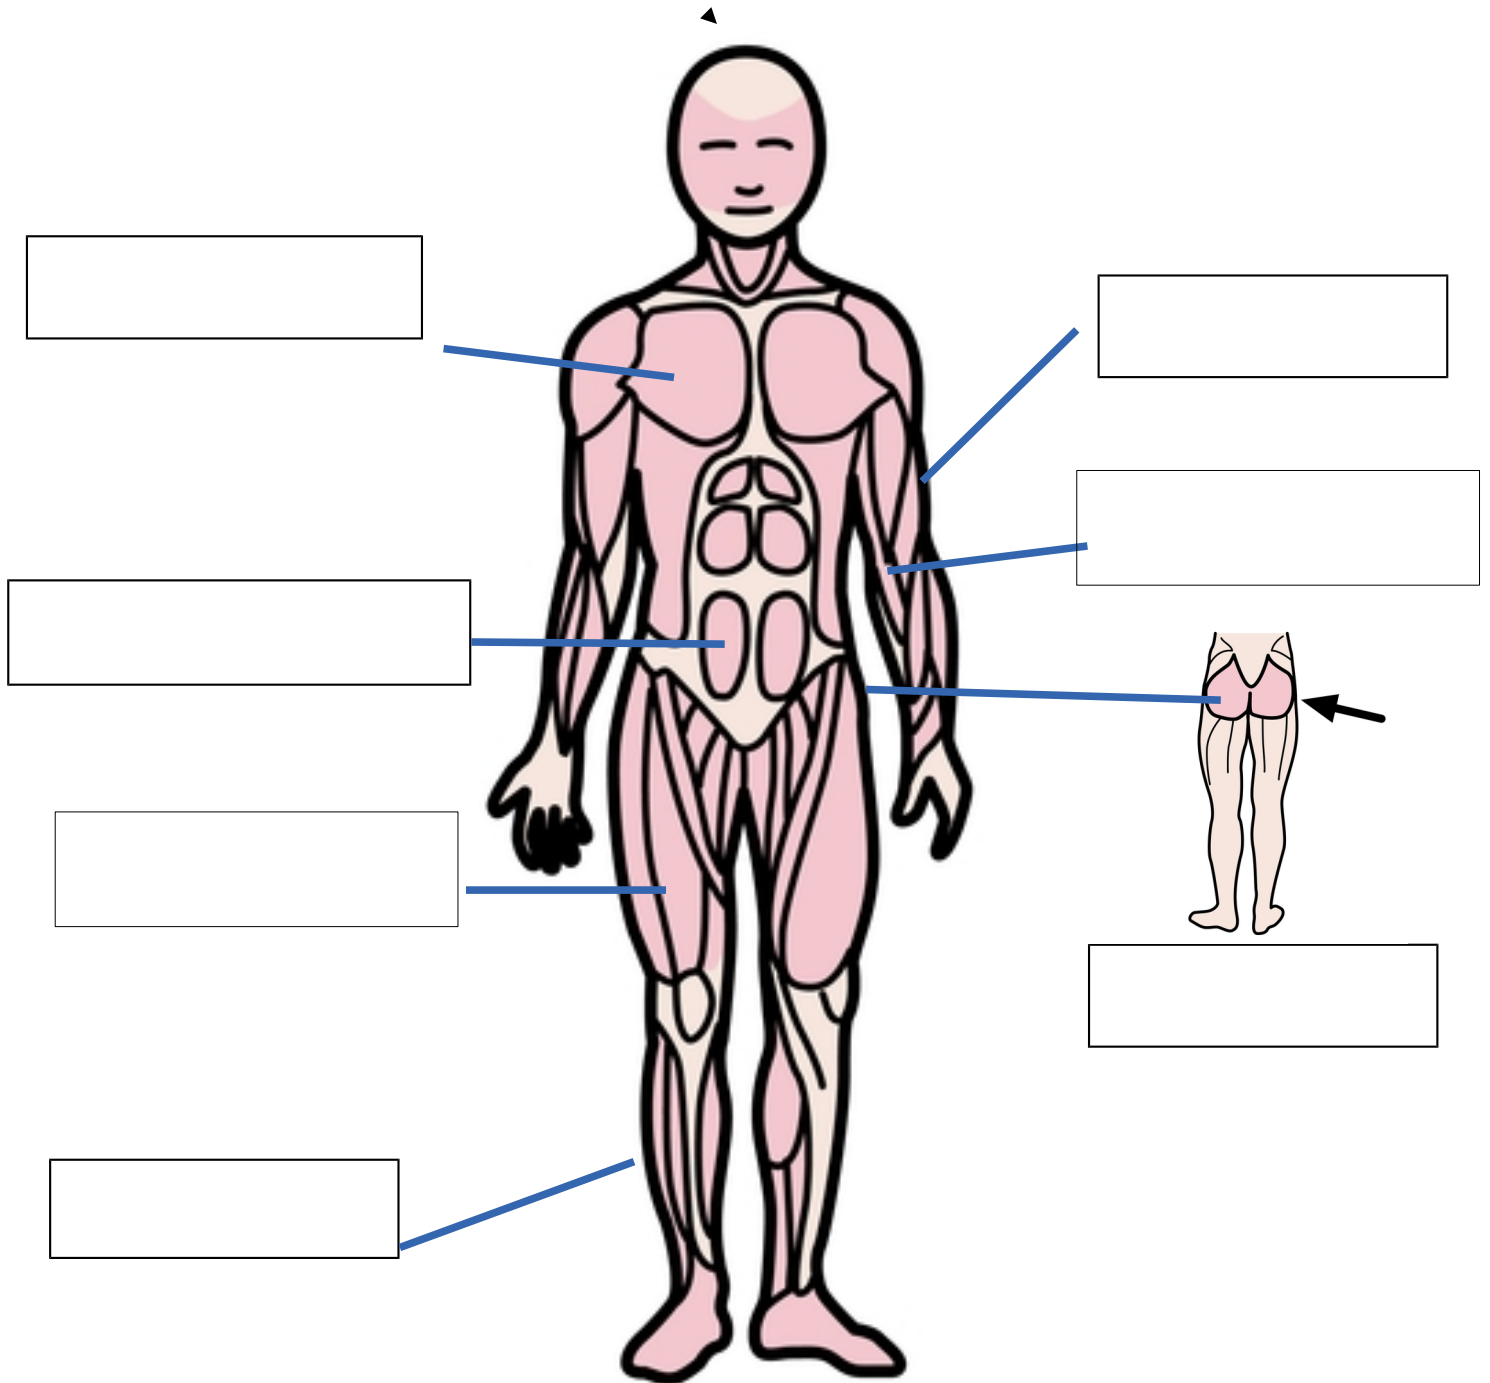

3. ¿Cómo son los músculos? \_\_\_\_\_

4. ¿Cuántos músculos hay en el cuerpo? \_\_\_\_\_
