

F f f f f f f f f f

The figure consists of two vertically stacked dot plots. Both plots have 10 horizontal categories on the x-axis and 10 vertical grid lines on the y-axis, representing 100 units. The top plot shows a uniform distribution of 100 samples per category. The bottom plot shows a highly skewed distribution where one category (the 10th category) contains approximately 950 samples, while the other nine categories contain very few samples, mostly below 10.

Category	Top Plot (Uniform)	Bottom Plot (Skewed)
1	100	5
2	100	10
3	100	10
4	100	10
5	100	10
6	100	10
7	100	10
8	100	10
9	100	10
10	100	950
