

INSTRUCCIÓN PARA A DESCARGA E INSTALACIÓN DE FREEMIND

The screenshot shows the FreeMind website's download page. The page title is "Download". The main content area contains a "Contents" list, a section for "Installing FreeMind" with system requirements, a "System requirements" section with a highlighted note about Java, a "Step-by-step overview" with four numbered steps, and a "Download" section with a table of binaries for various operating systems. A yellow callout box points to the "Windows Installer Max" link in the table, and an orange callout box at the bottom provides instructions on how to handle the Java requirement.

Download

The latest stable release of FreeMind is 1.0.0. Downloading and installation instructions are given below.

Installing FreeMind

FreeMind is written in Java, so it will run on almost any system with a Java runtime environment.

In order to make things easier for you, we've prepared installers for the most common desktop environments: Windows, Linux and Macintosh OS : which includes plugins for Scalable Vector Graphics (SVG), Portable Document Format (PDF), reminders and help files.

System requirements

Java Runtime Environment 1.6 or later. You can find a FreeMind installer including java [here](#) or download Sun's Java from [here](#).

Step-by-step overview

1. Install Java Runtime Environment if you do not have it.
2. Choose a FreeMind installation file by operating system.
3. Download the chosen installation file.
4. Install FreeMind.

Download

Choose among the following binaries of the current FreeMind 1.0.0 on your operating system.

OS	Download	Size (MB)	
MS Windows	Windows Installer Min	29	A smaller version without SVG export and PDF export.
MS Windows	Windows Installer Max	38	All-inclusive version
Mac OS X	MAC OS X	92	All-inclusive version. Information for Mac Maverick (10.9) and Mountain Lion (10.8) Users: Affected users should take this link.
Mac OS X 10.6.8	MAC OS X 10.6.8	150	All-inclusive version, still version 1.0.0. Users of version 10.6.8, please take this link; a different version is available for other Mac OS X versions.
Linux	Ubuntu Linux	??	Please consider first checking the release notes .
Linux	Debian Linux (currently still for the 0.9.0 version)	2.6	Please consider first checking the release notes .

Para instalar FreeMind é necesario ter instalado Java, no momento da instalación o programa detectará se está instalado Java, de non estalo preguntará se desexas instalalo, acepta.
