

SCREENCASTIFY

Ficha técnica e descrición

Sitio web: <https://www.screencastify.com/>

Tipo de ferramenta: Extensión (add-on) de captura de pantalla

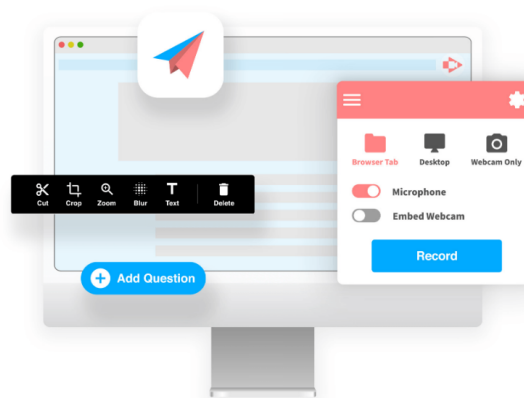

Nivel de dificultade: 1/5

Descrición: Screencastify permite gravar a pantalla do computador mentres se fai unha explicación, acompañada ou non da imaxe do profesor. O vídeo resultante pódese compartir cos alumnos cun par de clics, o que fai desta ferramenta un instrumento magnífico de veedback ou video feedback. Screencastify ten dúas irmás: Loom e Screencastomatic. Todas elas funcionan de xeito moi similar e teñen plans gratuítos con máis ou menos limitacións.
