Coas diferentes cuestións (aspectos), creamos os criterios que debe de ter en conta o corrector á hora de avaliala actividade.

Best possible grade / Scale to use

Type Point

Scale Camiños de coñecemento separados e conectados

Maximum points 4

Weight 1

Se queremos que pregunta 1 Teña un peso dun 40%, eliximos 4. Moodle xa recalcula automaticamente, a nota final, en función dos puntos máximos asignados á entrega da actividade e á de avaliación.

O resto das opcións xa son comúns a outras actividades.

Procedemos a gardar e amosar. Aparece o panel de control do taller, mediante o cal o docente activa as diferentes fases do taller.

Moi ben!!

O Moodle por defecto asignalle a nota máxima para un alumno que corrixiu as notas dun compañeiro (neste exemplo estamos asignándolle un 2)

Nome ▲ / Apellido ▼	Envío ▲ ▼	Grades received
 alumno cerodous	pac02	- (-) <  alumno ceroun
 alumno cerotres	pac02	6,44 (2,00) <  alumno cerodous
 alumno ceroun	pac02	1,76 (2,00) <  alumno cerotres

O alumno cerotres ten 6,44 (2,00)

6,44 é a nota que lle asignou o alumno cerodous pola corrección

2,00 Moodle asigna esta norta por por defecto. Pero o profesor pode modificar esta nota se o considera oportuno (grading evaluation phase)

2. PUBLICACIÓN DAS NOTAS

Unha vez que os alumnos corrixiron as actividades, o profesor pode repasar as avaliacións e publicar as notas

Setup phase	Submission phase	Assessment phase	Grading evaluation phase	Closed
✓ Set the workshop description ✓ Provide instructions for submission ✓ Edit assessment form	✓ Provide instructions for assessment ☐ Submit your work ☐ Allocate submissions agardabase: 2 entregouse: 0 para localizar: 0		☐ Calculate submission grades expected: 2 calculated: 0 ☐ Calculate assessment grades expected: 2 calculated: 0 ☐ Provide a conclusion of the activity	

You are about to switch the workshop into the **Grading evaluation phase**. In this phase, users cannot modify their submissions or their assessments. Teachers may use the grading evaluation tools to calculate final grades and provide feedback for reviewers.
