

*I am about to interview a robot*

Reading task (page 80)

Decide if the following statements are TRUE or FALSE according to the information in the text. Then, write the first four words of the sentence that justifies your answer.

1. Never before had such a complex robot been developed.
2. There are no noticeable imperfections in the robot's complexion.
3. The robot's face can move to adapt to various situations.
4. The robot has been based on an actual flesh-and-blood person.
5. The writer is slightly uncomfortable about the interview with the robot.
6. Humanoid robots will never develop a consciousness of their own.
7. For the writer, the robot's answers were childlike and occasionally incoherent.
