Paired dictation – RELATIONSHIPS - FAMILY

Read this passage aloud **phrase by phrase** to your partner, using the English words for punctuation. By listening alone, without looking at the text, your partner must write it down **in English** as correctly as possible. Once person A has finished dictating, person B can dictate. After having dictated both fragments, swap the notebooks over and correct your partner's mistakes.

Person A

Ending a dangerous liaison /lɪ'eɪzən/ is tough. It can fill you with longing and pain, and can also shatter your life, as you constantly ask yourself a repertoire /'rɛpə,twa:/ of "what if..?" In this article we will deal with the most common situations and emotions, so that we can recover from it. It takes 11 weeks to feel the beneficial effects of a relationship split, according to research published in 'The Journal of Positive Psychology'. However, a separate study found it takes 18 months to get over a marriage breakdown and subsequent debris /'deɪbri/.

This idea is not a mirage /mɪ'ra:ʒ/, but don't be fooled either. The reality is that no one person is the same. The amount of time to get over an ex-partner will vary depending on factors including how long you were together, whether you had children or whether you wanted it to end. And, yes, it is possible to move forward and avoid an existential cul-de-sac /'kʌldə,sæk/. It is important to apply some savoir-faire /sævwa:'fɛə/ here: to remember that most of us have been in this situation and recognise the intense emotions.
