WALL STREET CRASH!

Black Thursday in America Stocks Plunge and Eleven Commit Suicide

Panic selling on the New York Stock Market caused the average 11 million shares to drop 11 points in just one day.

Market sales in the early morning created a serious artificial atmosphere of chaos and panic. Brokers flooded the market with orders from their customers to sell at any price.

In the confusion which ensued, the market broke down entirely as the usual business of the day for the week ended. Brokers were unable to get any price and the value of many companies fell during the course of the morning.

The first early morning sales saw a work of 100,000 shares of stock and the "New York Times" reported that the market was in a panic, while the

BLACK TUESDAY

NEW YORK, TUESDAY, OCTOBER 29, 1929

THE STOCK MARKET CRASH OF 1929

BY BARBARA
SILBERDICK FEINBERG

NEW YORK, OCTOBER 29—Another hurricane of liquidation hit the stock market today, as financial uncertainty fed on rumor and turned to panic. Frightened investors ordered their brokers to sell at any price, and the stock market crashed. Those on the floor of the Wall Street exchange waded in paper and tried to add up their losses.

It is believed those losses total billions of dollars. Thousands of accounts were wiped out as a record

Crowds Gathered On Wall Street As The Market Went Into Historical Decline

number of shares were traded. Some stocks were almost given away. Millions of shares traded hands.

Brokers on the floor of the Exchange have never seen a day like this. The shock on Wall Street spread to other exchanges and markets. It

was a country-wide collapse of security values in which losses were the most disastrous and far-reaching in the history of the Stock Exchange. There was near-panic on the Chicago commodities exchange. Rumors spread from one end of the United
