Example 1

My house is big and comfortable, and it is very bright. There is a kitchen and a living room, and there are two bathrooms. There are some chairs and a sofa in the living room, but there isn't any TV. There is a small garden because we like plants. In my bedroom, there is a bed and a desk, and there are some books, then I study there every day.

Example 2

I live in a small house with my family, but it is very nice. There is a kitchen and a living room downstairs, and there are some cupboards and a fridge. In the living room, there is a sofa and some chairs, and we watch TV or play games. My bedroom is upstairs, and there is a bed and a desk because I do my homework there, then I relax.

Example 3

My house is modern and bright, and it has three bedrooms. There is a big table and some chairs in the dining room, and there are some plants because I like nature. In my bedroom, there is a bed and a desk, but there isn't any TV. There are some photos on the wall, and I feel happy there, then I listen to music or read.
