

ACTIVITY IDEAS / III TETRIS

[Zamawiam licencję](#)

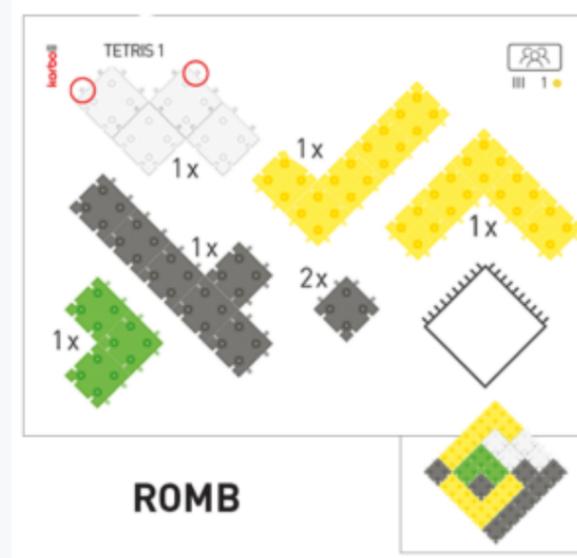

Tetris as a group challenge – why not! Cooperation is key, because in Tetris the participants have to work together, analyse the situation, plan moves and experiment with different strategies. The ability to communicate is essential to succeed in this challenge and translates into valuable social skills. Pupils develop spatial and logical thinking skills, perception and eye-hand coordination. They improve concentration and attention skills, which are important for learning.

III.1 RECTANGLE

III.2. SQUARE

III.3 DIAMOND
