Here are some words you need in this unit:

1. Global warming: Calentamiento global
2. Energy source: Fuente de energía
3. Natural resource: Recurso natural
4. Pollution: Polución
5. Wildlife: Vida salvaje.

PRACTICE:

1. THINK:

- What are some of the planet's biggest problems today ?
- Can you think of actions that people can do to save the planet?

2. A COMPOSITION EXERCISE : A Narrative

- **Write a narrative beginning: “I’ll never forget the day ...” and use the vocabulary that is written above.**
- **About 100 words.**

SOLUTIONS:

1) The thought will be assessed attending to the following aspects:

- All the writings of your thoughts must include a narrator's intervention describing the type of situation (pollution / global warming, etc.) , show a fundamental reason and the contextual background in which the situation happened. It must also follow the logical order of words in English, it must be grammatically correct, too and show a final conclusion.

2) A NARRATIVE : “ I’LL NEVER FORGET THE DAY...”

1) The narrative will be assessed attending to the following aspects:

- All the texts must include a narrator's intervention describing the type of situation (formal / informal) , show the contextual background in which the situation happened. It must also follow the logical order of words in English, it must be grammatically correct, too and show a final conclusion in which you summarize what you said previously, write your feelings and make a final recommendation..
