B. The following composition contains 13 typical errors often made by students in their writing. Identify the errors and correct them.

You know what is England's traditional fast food? Fish and chips. People for over 100 years have eaten fish and chips. Chips were sold by the 1870s with fish fried in many working-class neighbourhoods. Then, when people bought fish and chips, the food was wrapped usually in newspaper to keep it warm until they got home. If you today want to buy fish and chips, you won't find easily a shop that sells them. You may wonder why is this so. The traditional fish and chip shop is disappearing from England's streets. However, some restaurant owners are asking, "How we can save this dish famous?" They are advertising all over London this British institution as a tourist attraction. So, when tourists buy for themselves this meal, they are saving a part of culture British.

C. Now do the same with this composition. Here we have 15 errors.

If you will ask anyone what is the most famous name in children's entertainment, he will probably to say Walt Disney. Disney was an animator, that is, a maker of cartoons. Cartoons characters like Mickey Mouse, Donald Duck and Bambi are still today popular even though they was created over 50 years ago. Walt Disney's studio has become an organisation international. Disney films like *The Jungle Book* or *Aladdin* is seen all over the world. Some classics films often are shown on TV.

Many people ask: "Do you can mix real people with cartoons in a film?" The answer is "Yes". The film *Roger Rabbit* is an example of this. In the early twenties, people said that moving pictures will not be a real success. They were wrongs. So when you will want to see with your friends a film, buy some tickets to a Disney cartoon and you will to have a good laugh!

D. And now again with these 15 mistakes.

To my opinion, TV has an important role to play in our lives, provided that our viewing is selective. Let me explain what do I mean.

As I see it, watch TV help make people more knowledgeable. There are very news programmes throughout the day that keep us informed of recent developments as they happen. In addition, there are several excellents talk shows that deal with current issues.

Let's not to forget that watching TV adds greatly to our knowledge of the world around us. Viewers can selected from a wide variety of fascinating, educational programmes, such as historical documentaries and nature programmes. A series on travel, for example, often can broaden our horizons and allow us to learn about places strange and exotic.

Undoubtedly, TV provides us with endless hours of free entertainment and relaxation. Films, game shows and programmes quiz are a welcome relief from the pressures of a busy day. After hours of classes and homework, there isn't nothing I enjoy more than watching my favourite channel: Discovery Channel.

In short, I believe that if it will be used intelligently, TV has the potential to enrich our lives greatly.
