Map 26 Draw sections across the map to show the form of the igneous rocks and the other structural features. Also deduce the relative ages of the igneous rocks as far as this is possible.

A

A geological map showing a cross-section from West (W) to East (E). The map includes several geological units and structural features:

- Unit 1:** A large, irregularly shaped area in the center, bounded by a dashed line, containing numerous small crosses and the number 12.
- Unit 2:** A wavy, dashed line representing a boundary or fault, labeled with the number 2.
- Unit 3:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 7.
- Unit 4:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 7.
- Unit 5:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 5.
- Unit 6:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 8.
- Unit 7:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 7.
- Unit 8:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 8.
- Unit 9:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 10:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 11:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 12:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 13:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 14:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 15:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 16:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 17:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 18:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 19:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
- Unit 20:** A series of wavy, dashed lines representing a boundary or fault, labeled with the number 9.
