

Orgánulos e estructuras celulares

Membrana plasmática

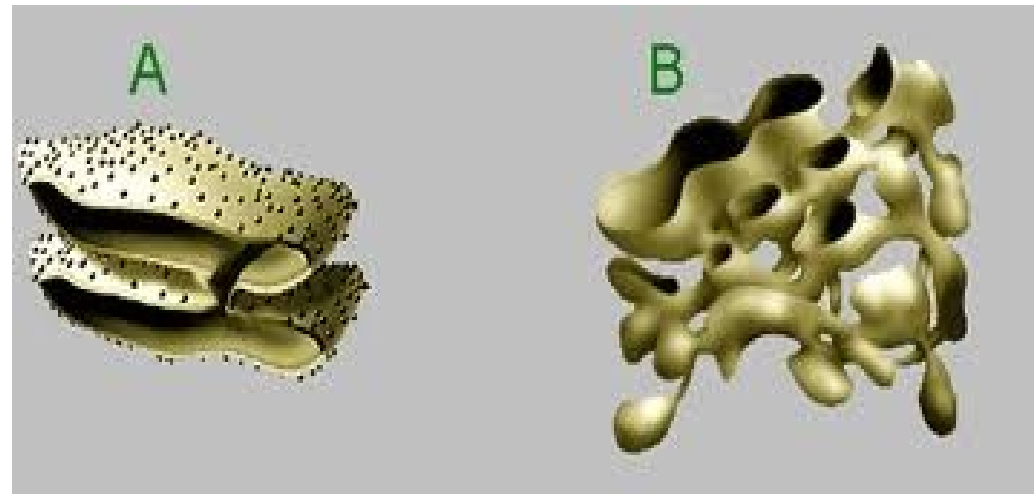

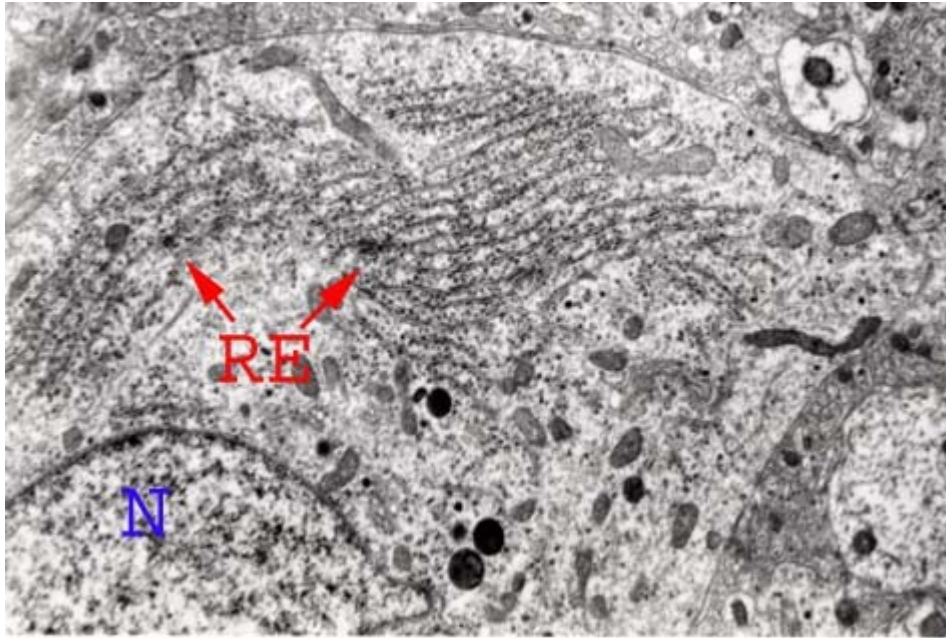

Ribosomas

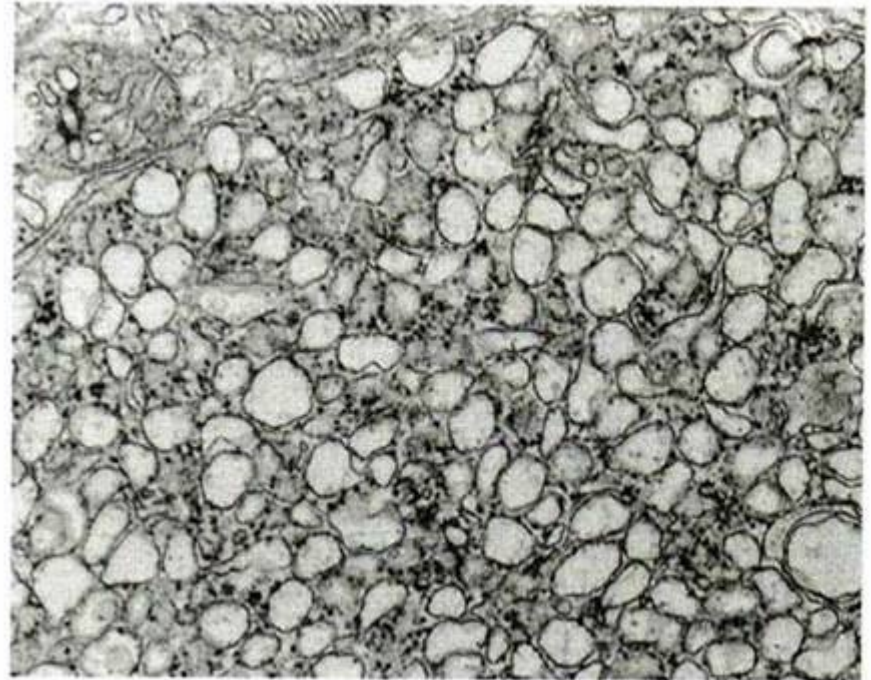

Retículo endoplasmático liso e rugoso

(a) Rough endoplasmic reticulum

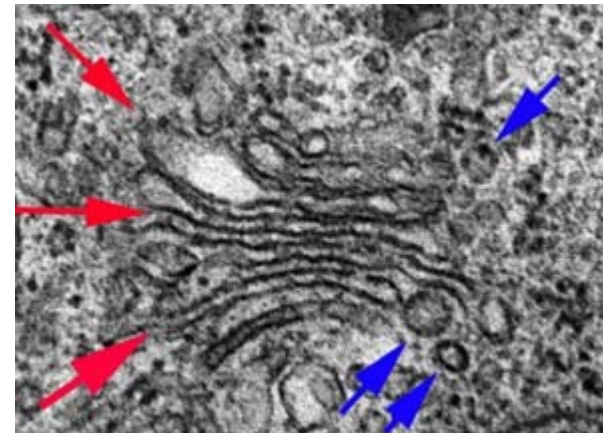

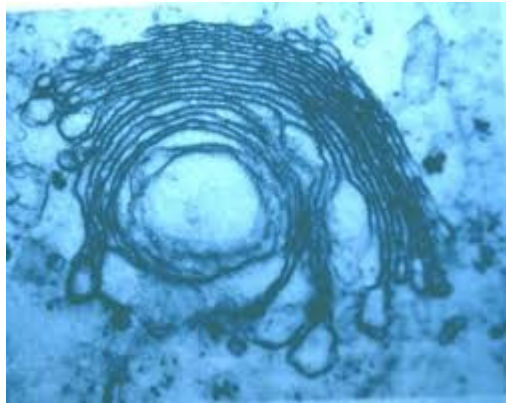

0.5 μm

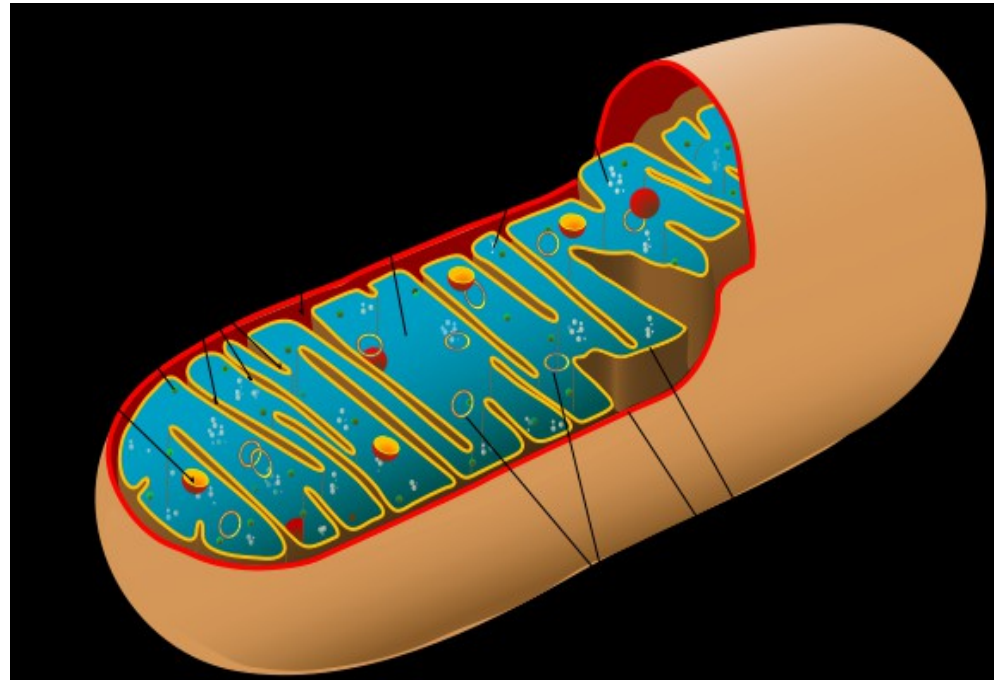

(b) Smooth endoplasmic reticulum

0.5 μm

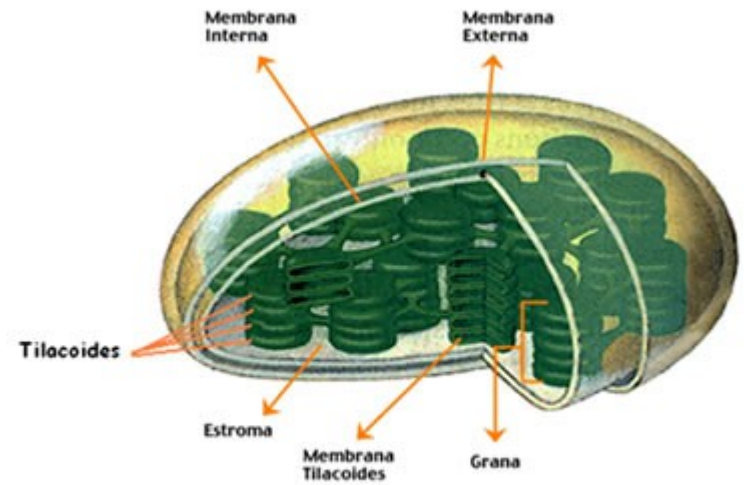

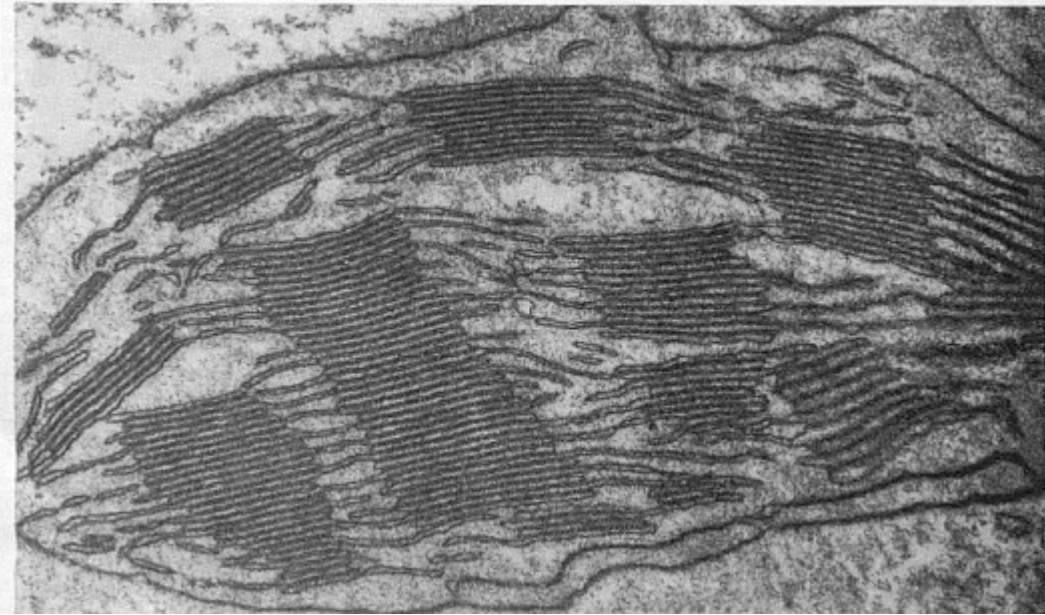

Aparello de Golgi

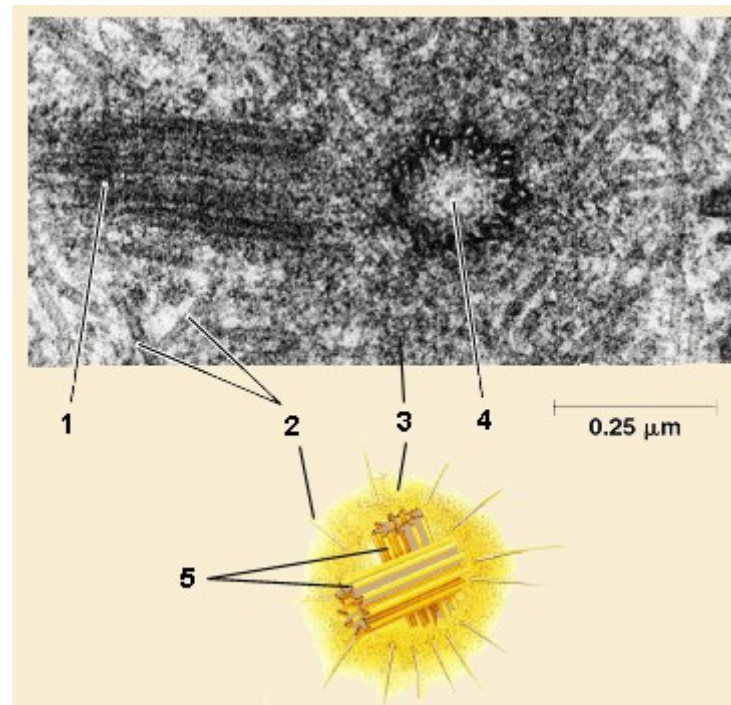

Mitochondria

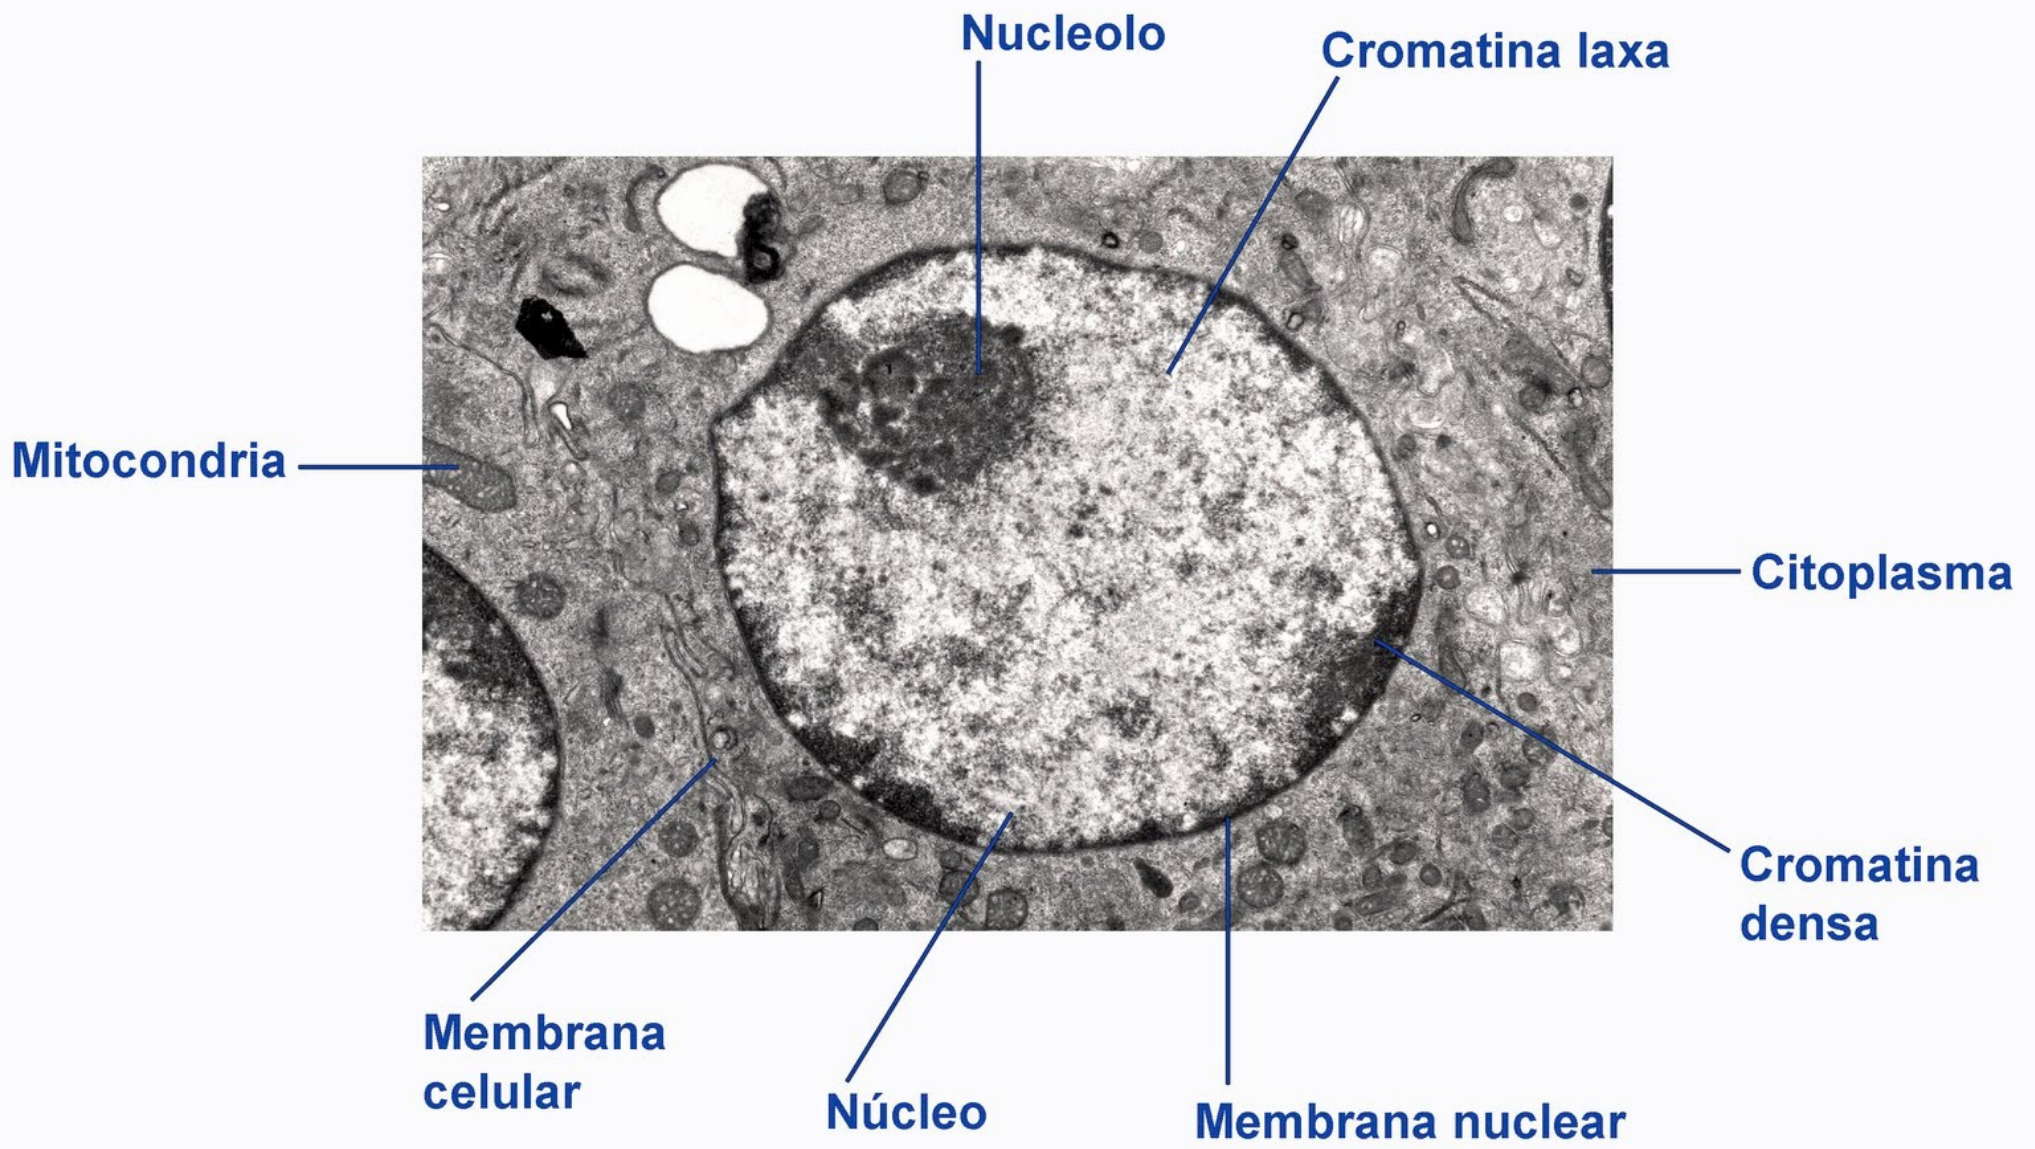

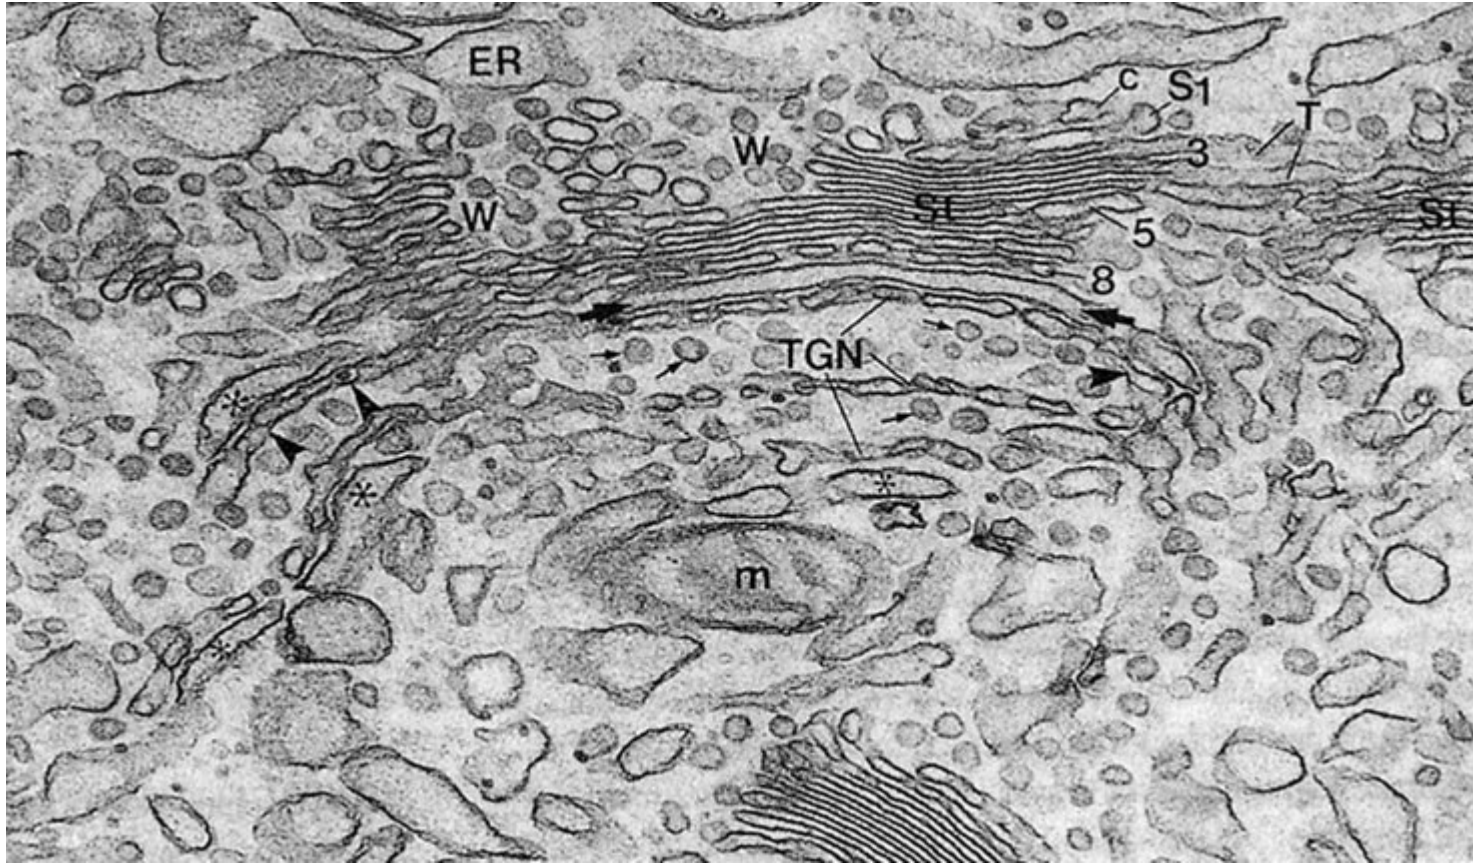

Cloroplastos

Centrosoma

Micrografía electrónica del aparato de Golgi del epidídimo de rata. ER, retículo endoplásmico; CTG, cara trans del Golgi; m, mitocondria; los números representan los sáculos del aparato de Golgi. (Hermo y cols., Anat. Rec. 1991, 229:159-176).
